学生のみなさん

学長 仁科 弘重
教育・学生支援機構長 八尋 秀典

新型コロナウイルス感染症の感染者・濃厚接触者が急増中！【注意喚起】

11月に入り、学内において新規感染者が急増しており、その中には友人間での会食やカラオケなどリスクの高い行動が原因と考えられる感染者が多く含まれています。また、コロナ禍の長期化や、第7波収束以降の社会的な規制緩和により、感染予防意識が低下しているように見受けられます。

ついては、これまでどおりの大学生活を継続していくために、改めて、(1) 毎朝の検温等各人の健康管理、(2) 手洗い、手指消毒等の徹底、(3) 教室等の換気に対しての暖かい服装の着用、(4) 積極的なワクチン接種をお願いします。

昨年度も本年度も、夏と冬の冷暖房が必要な時期に換気が制限されるためか、感染者が増えています。年末に向かって教室等の常時換気を行いたいので、暖かい服装の着用をお願いします。

これから本格的な冬を迎えるにあたり、新型コロナの第8波とインフルエンザの同時流行が懸念されていますので、引き続き、気を緩めることのないよう一層のご協力をお願いいたします。

November 21, 2022

Dear Students,

NISHINA Hiroshige, President, Ehime University
YAHIRO Hidenori, Director, Institution for Education and Student Support

A sharp increase in the number of people infected with or in close contact with COVID-19!

【Alert Reminder】

Since the beginning of November, there has been a sharp increase in the number of newly infected people on campus, many of whom are thought to have been infected due to high-risk activities such as dinners and karaoke among friends.

In addition, due to the prolonged COVID pandemic and the social deregulation after the convergence of the 7th wave, there appears to be a decline in awareness of infection prevention.

Therefore, in order to continue your university life as before, we ask you again to (1) take your temperature every morning and take care of your health, (2) wash your hands and disinfect your fingers thoroughly, (3) wear warm clothes for ventilation in classrooms, etc., and (4) actively get vaccinated.

Both last year and this year, the number of infected patients has increased during the summer and winter months when air conditioning and heating are required probably due to limited ventilation. We would like to ensure constant ventilation of classrooms and other areas towards the end of the year, so please wear warm clothing.

As we enter the full-blown winter season, we are concerned about the simultaneous spread of the 8th wave of COVID-19 and influenza, so we ask for your continued and further cooperation to remain vigilant.
